EDUCATION

Amity University

Bachelor of Computer Applications

Noida, India

Aug. 2022 – May 2025

EXPERIENCE

UI Developer

Jan 2022 – Present

Select10X | jQuery, CSS, Figma, Git, Javascript

Remote

- User Interface for critical components were designed and developed at Select10X, enhancing the assessment and selection process for employers and candidates.
- Developed User Interface for key modules such as Manage Assessments, Question Bank, Self Assessment Portal, and Candidate's Assessment Player. The development methods were able to reduce the user task completion time by 75%.
- Utilized HTML, CSS, jQuery, and Bootstrap to create intuitive interfaces, ensuring seamless user experiences achieving a user satisfaction rate of 95%.
- Thrived in a dynamic startup environment, delivering high-quality User Interface solutions independently, without the help of a dedicated designer, contributing to a 40% increase in project delivery speed.

PROJECTS

Movix | React, Firebase

May 2024 – June 2024

- Developed with React and RapidAPI, and deployed with Firebase.
- You can search any Movies or TV shows and check its Ratings, Casts, Trailers, Teasers etc.

Looking [WIP] | React, HTML, CSS, Git, Firebase

July 2024 – Present

- This clone of Booking.com is being developed using React, RapidAPI and CSS.
- This app would be able to fetch Hotels, Destinations and Flights in real-time and show them to users with ratings, pricing etc.

Gericht | React, HTML, CSS

Jan 2024

- This static Restaurant app has been developed from scratch using CSS and React.

GPT-3 | React, HTML, CSS

Feb 2024

- Inspired by OpenAI's ChatGPT, GPT-3 has been developed using CSS and React.
